

Maeve K-SAFE TUFF Lounges

The Maeve K-SAFE TUFF Lounges take on a high-end luxurious homely style with its styled side wings, full height back and in-depth upholstery. Yet its clever design doesn't bypass any feature that's needed to uphold safety integrity for extreme mental health. One great unique feature about its wings is that the occupant can take naps whilst resting their head. It is totally bariatric friendly — extra wide seat, and its indestructible features automatically allow it to hold extraordinary weights of up to 10 x heavier than human beings.
